EDUCATION

Ph.D. in Statistics

Florida State University

July 2022

Tallahassee, FL

- Advisor: Prof. Anuj Srivastava;
Dissertation: Computational Anatomy: Elastic Shape Analysis of Subcortical Structure Surfaces

Master of Science in Applied Statistics

Florida State University

May 2019

Tallahassee, FL

- GPA: 3.96

Bachelor of Engineering in Packaging Engineering

Wuhan University

June 2017

Wuhan, China

- GPA: 3.6
- Double degree: Bachelor of Commerce in Economics

EXPERIENCE

Postdoctoral Scholar

University of Washington

Sept 2022 – Present

Seattle, WA

- Postdoctoral Scholar with the National Alzheimer's Coordinating Center (NACC), under the supervision of Dr. K.C. Gary Chan.
- UW Data Science Postdoctoral Fellow, eScience Institute.

Graduate Research Assistant

Florida State University

May 2022 – July 2022

Tallahassee, FL

- Leading and participating in multiple projects of the Statistical Shape Analysis & Modeling Group.

Graduate Instructor

Florida State University

Jan 2022 – May 2022

Tallahassee, FL

- Introduction to Applied Statistics (STA 2122).

Graduate Research Assistant

Florida State University

May 2020 – Jan 2022

Tallahassee, FL

- Leading and participating in multiple projects of the Statistical Shape Analysis & Modeling Group.

AWARDS

Yongyuan and Anna Li Award

Department of Statistics, Florida State University

2022

- For best graduate student presentations

Best Student Presentation Award

2022 Annual Florida ASA Chapter Meeting

2022

- Longitudinal Elastic Shape Analysis of Brain Subcortical Structures

Best Student Poster Award (Top 1%)

SIAM Conference on Computational Science and Engineering (CSE) 2021

2021

- Elastic Shape Analysis of Post-Traumatic Stress Disorder on Subcortical Brain Structures

2nd Place in ACM Programming Contest

Florida State University

2018

1st Class Scholarship (Top 1%)

Wuhan University

2016

PROJECTS

- Elastic Shape Analysis of Brain Structures for Predictive Modeling of PTSD** Feb 2020 - Aug 2022
- In collaboration with Dr. Suprateek Kundu and Dr. Jennifer Stevens from Emory University.
 - Integrating brain morphological features and clinical covariates to model Post-traumatic stress disorder outcomes.
 - Applying the method to data from the Grady Trauma Project and yielding superior predictive performance.
- LESA: Longitudinal Elastic Shape Analysis of Brain Subcortical Structures** Sept 2020 - Nov 2022
- In collaboration with Drs. Zhengwu Zhang, Di Xiong, Joseph Graham, and Hongtu Zhu from UNC Chapel Hill.
 - Developing an efficient framework and a unique toolbox for systematically quantifying and visualizing the development and changes of longitudinal subcortical surface shapes.
 - Analyzing three longitudinal neuroimaging data sets with estimating continuous shape trajectories, building life-span growth patterns, and comparing shape differences among different groups.
- Solving Optimal Surface Deformation Using Deep Residual Networks** Jan 2021 - Present
- In collaboration with Dr. Boulbaba Ben Amor from Inception Institute of Artificial Intelligence.
 - Utilizing deep residual neural networks to solve the optimal shape deformation of surfaces under the square root normal field (SRNF) representation.
- Analysis and Generation of Bacteria Cellular Shapes** Mar 2021 - Mar 2023
- In collaboration with Tanjin Taher Toma, Dr. Jie Wang, and Dr. Scott Acton from the University of Virginia.
 - Analyzing the shape summaries of segmented 3D bacteria cellular surfaces; generating synthetic bacteria cellular surfaces based on the distribution of true surface shapes.
- Spatial-Temporal Analysis of 3D Human Body Movements Using Video Data** Nov 2021 - Present
- In collaboration with Dr. Hamid Laga from Murdoch University.
 - Developing a framework for reproducing smooth 3D human movement videos based on sparse time samples of movement
 - Analyzing movement differences by conducting spatial-temporal surface registration.
- Topological and Geometrical Analysis of Brain Shape with Multi-modality Data** Sept 2022 - Present
- In collaboration with Drs. Yen-Chi Chen, Kyle Ormsby, and Dean Shibata from the University of Washington.
 - Understanding the interplay between A β and tau proteins and their spatial distribution in the brain using PET images.
 - Investigating the topological and geometrical features of brain images in different groups to reveal complex underlying structures and identify potential biomarkers for disease progression.
- Causal Inference on Brain Structures and Cognitive Disorder** October 2022 - Present
- Developing a high-dimensional mediation analysis approach for complex brain structures.
 - Gaining more statistical power, identifying more significant SNPs associated with AD, and capturing the causality between deformations in brain structure shapes with genotypes and disease progression.

PRESENTATIONS

(03/2021) *Elastic Shape Analysis of Post-Traumatic Stress Disorder on Subcortical Brain Structures*, SIAM Conference on Computational Science and Engineering (poster), online

(05/2021) *Elastic Shape Analysis of Brain Structures for Predictive Modeling of PTSD*, The Statistical Methods in Imaging Conference (poster), online

(04/2022) *Longitudinal Elastic Shape Analysis of Brain Subcortical Structures*, 2022 Annual Florida ASA Chapter Meeting, online

(06/2022) *Longitudinal Elastic Shape Analysis of Brain Subcortical Structures*, 2022 Treatment and Analysis of the Information Methods and Applications (TAIMA), online

(10/2022) *Statistical Shape Analysis and Transdisciplinary Applications*, UW eScience Institute Postdoc Seminar, online

(05/2023) *LESA: Longitudinal Elastic Shape Analysis of Brain Subcortical Structures*, The Statistical Methods in Imaging Conference 2023, Minneapolis

(07/2023) *Topological Network Analysis of Beta-Amyloid and Tau in Alzheimer's Disease Using PET Imaging Data*, The Alzheimer's Association International Conference (AAIC) 2023 (poster), online

(08/2023) *Longitudinal Elastic Shape Analysis of Brain Subcortical Structures*, The 6th International Conference on Econometrics and Statistics (EcoSta 2023), Tokyo (online)
